“Taking Care of Your Fabulous Feet”

Dental staff can be literally “run off their feet” on a busy day at the office. Our feet play an important role in our day to day activities and contribute to our physical ability to perform our jobs well. Foot health is critical to our personal well-being and to maximizing our work performance. Ed Shields, a local Physical Therapist, will provide you with insight to the connection between healthy feet and skeletal balance. You will learn how to maintain foot health and identify the need for intervention by health professionals.
